DON'T WASTE FOOD, DONATE

One of the main societal problem in India is FOOD WASTAGE. we Indians waste lot of food in our daily lives. This is an emerging main issue in India. Our streets, dustbins, and landfills are proof for that. Weddings, canteens, hotels, social and family functions, households throw out so much food. Indians waste about 40% of total food produced in India. So I would like to design a organization for wastage of food.

CUSTOMERS FOR THIS ORGANIZATION

- Poor people
- Labourers
- Charity homes, orphanage, old age homes
- Needy patients and their relatives
- People visiting government hospital
- Beggars near temple,mosque
- Homeless people
- People living in slum

PRODUCTS OR SERVICES PROVIDED BY MY ORGANIZATIONS

- Access to drinking water
- Collect leftover fresh food and distribute to needy.
- Encouraging restaurants and households to give away surplus food to the needy
- Distributing posters containing contact details, if someone has surplus food they can call us and we will collect the food and give it to underprivileged
- Our volunteers first taste it themselves before distribution
- We have marked some places where we regularly distribute these food items

ORGANIZATION FUND ITS OPERATIONS

- Open food distribution chains
- Few cold storage centers
- Refrigerated trucks
- Transportation facilities
- Donations
